*"Trends in the numbers of inpatients" are based on the “Surveillance of the Status of Care for Patients with the Novel Coronavirus Infection and the Number of Beds,” by the Ministry of Health, Labour and Welfare. With this surveillance, the results as of 0:00 on the presentation date are published. Regarding the number of severe patients, the subject criteria differ from those for the data published prior to August 14. In the same survey (published on January 29, 2021), the use rate of secured beds for severe patients in Tokyo was described as "The number of severe patients, 567, was counted based on the national criteria for this survey, and cannot be compared simply with the number of secured beds of 500." ↑, ↓, and → indicate an increase, a decrease, and the same level, respectively, compared to the previous week.*
①新規感染者報告数
No. of new cases of infection reported

②新規感染者数(人口1,000人)
No. of new cases of infection (per 100,000 people)

③検査状況
No. of PCR tests performed (left scale)
No. of persons who tested positive/No. of PCR tests (right scale)

④入院者数/重症者数
No. of inpatients/No. of secured beds

⑤病床占有率
Bed occupancy rate

(10,000 cases)

(5) Bed occupancy rate

(6) No. of patients receiving treatment
No. of persons under investigation
No. of patients receiving treatment at social welfare facilities, etc.
No. of patients staying at home

(1) No. of new cases of infection reported
No. of inpatients/No. of severe patients

(2) No. of new infections (per 100,000 people)/ Percentage of unlinked cases
No. of new infections (per 100,000 people) (left scale)
Percentage of unlinked cases (right scale)

(3) Test status
No. of PCR tests performed (left scale)
No. of persons who tested positive/No. of PCR tests (right scale)

(4) No. of inpatients/No. of severe patients
No. of inpatients (left scale)
No. of severe patients (until Aug. 26) (right scale)
No. of severe patients (from Aug. 26 to Sep. 16) (right scale)
No. of severe patients (from Sep. 16) (right scale)
