

## 5. Department of Bacteriology II

- 1) Matsui M, Suzuki S, Suzuki M, Arakawa Y, Shibayama K. Rapid discrimination of *Acinetobacter baumannii* international clone II lineage by pyrosequencing SNP analyses of *bla*<sub>OXA-51-like</sub> genes. J Microbiol Methods. 2013, 94:121-124
- 2) Matsui M, Shibayama K, Tsuji Y, Kamimura H, Karube Y, Yoshida M, Masuda Y, Hiraki Y, Takaki K, Kawano F. Isolation of genetically indistinguishable carbapenem-resistant and susceptible *Acinetobacter baumannii* isolates from a single patient. Antimicrob Agents Chemother 2013, 57(11):5781-5782
- 3) Wachino J, Matsui M, Tran HH, Suzuki M, Suzuki S, Shibayama K. Evaluation of a double-disk synergy test with a common metallo- $\beta$ -lactamase inhibitor, mercaptoacetate, for detecting NDM-1-producing Enterobacteriaceae and *Acinetobacter baumannii*. Jpn J Infect Dis. 2014, 67(1):66-68
- 4) Hagiya H, Murase T, Suzuki M, Shibayama K, Kokumai, Y., Watanabe, N., Maki, M., and Otsuka, F. (2013) *Chromobacterium violaceum* nosocomial pneumonia in two Japanese patients at an intensive care unit. J Infect Chemother 20(2): 139-142.
- 5) Suzuki M, Matsui M, Suzuki S, Hiraki Y, Kawano F, and Shibayama K. (2013) Genome sequence of a strain of the human pathogenic bacterium *Pseudomonas alcaligenes* that caused bloodstream infection. Genome Announc 1(5): e00919-13.
- 6) Suzuki M, Matsui M, Suzuki S, Rimbara E, Asai S, Miyachi, H, Takata T, Hiraki Y, Kawano F and Shibayama K. (2013) Genome sequences of multidrug-resistant *Acinetobacter baumannii* strains from nosocomial outbreaks in Japan. Genome Announc 1(4): e00476-13.
- 7) Suzuki S, Matsui M, Suzuki M, Sugita A, Kosuge Y, Kodama N, Ichise Y, Shibayama K. Detection of tripoli metallo- $\beta$ -lactamase 2 (TMB-2), a variant of *bla*<sub>TMB-1</sub>, in clinical isolates of *Acinetobacter* spp. in Japan. J Antimicrob Chemother. 2013 Jun;68(6):1441-2
- 8) Matsuoka M, Sasaki T, Kobayashi M, Sawabe K, Sasaki Y, Shibayama K, Sasaki T and Arakawa Y. Hemin-binding proteins as potent markers for serological diagnosis of infections with *Bartonella quintana*. Clin Vaccine Immunol 20: 620-626, 2013
- 9) Tagashira Y, Kato H, Senoh M, Nakamura A. Two cases of fulminant colitis due to binary toxin-positive *Clostridium difficile* that are not PCR ribotype 027 nor type 078. J Med Microbiol 2013 62:1486-1489
- 10) Niwa H, Kato H, Hobo S, Kinoshita Y, Ueno T, Katayama Y, Hariu K, Oku K, Senoh M, Kuroda T, Nakai K. Postoperative *Clostridium difficile* infection with PCR ribotype 078 strain identified at necropsy in five Thoroughbred racehorses. Vet Rec 2013 173(24):607-613
- 11) Yoshimura Y, Tachikawa N, Komiya T, Yamamoto A. A case report and epidemiological investigation of axillary lymph node abscess caused by *Corynebacterium ulcerans* in an HIV-1 -positive patient. Epidemiology and Infection 2013 20: 1-4
- 12) Hirai-Yuki A, Komiya T, Suzaki Y, Ami Y, Katsukawa C, Takahashi M, Yamamoto A, Yamada YK. Isolation and characterization of toxigenic *Corynebacterium ulcerans* from two closed colonies of cynomolgus macaques (*Macaca fascicularis*) in Japan. Comparative medicine June 2013 63: 1-7
- 13) Hifumi T, Sakai A, Yamamoto A, Murakawa M, Ato M, Shibayama K, Kato H, Koido Y, Inoue J, Abe Y, Kawakita K, Hagiike M, Ginnaga A, Kuroda Y. Effect of antivenom therapy of *Rhabdophis tigrinus* (Yamakagashi snake) bites Journal of Intensive Care 2014 2:44
- 14) Senoh M, Ghosh-Banerjee J, Mizuno T, Shinoda S, Miyoshi S, Hamabata T, Nair GB, Takeda Y. Isolation of viable but nonculturable *Vibrio cholerae* O1 from environmental water samples in Kolkata, India, in a culturable state. Microbiologyopen. 2014 3:239-46
- 15) Rimbara E, Sasatsu M, Graham DY. PCR detection of *Helicobacter pylori* in clinical samples. Methods Mol Biol. 2013;943:279-87.
- 16) Rimbara E, Mori S, Kim H, Matsui M, Suzuki S, Takahashi S, Yamamoto S, Mukai M, Shibayama K. *Helicobacter cinaedi* and *Helicobacter fennelliae* transmission in a hospital from 2008 to 2012. J Clin Microbiol. 2013 Jul;51(7):2439-42.
- 17) Rimbara E, Mori S, Kim H, Shibayama K. Role of  $\gamma$ -glutamyltranspeptidase in the pathogenesis of *Helicobacter pylori* infection. Microbiol Immunol. 2013 Oct;57(10):665-73.
- 18) Rimbara E, Matsui M, Mori S, Suzuki S, Suzuki M, Kim H, Sekizuka T, Kuroda M, Shibayama K. Draft Genome Sequence of *Helicobacter fennelliae* Strain MRY12-0050, Isolated from a Bacteremia Patient. Genome Announc. 2013 Aug 8;1(4).

- 19) Miyaji Y, Otsuka N, Toyozumi-Ajisaka H, Shibayama K, Kamachi K. Genetic analysis of *Bordetella pertussis* isolates from the 2008-2010 pertussis epidemic in Japan. PLOS ONE. 2013 Oct;8(10):e77165.
- 20) Katsukawa C, Kushibiki C, Nishito A, Nishida R, Kuwabara N, Kawahara R, Otsuka N, Miyaji Y, Toyozumi-Ajisaka H, Kamachi K. Bronchitis caused by *Bordetella holmesii* in a child with asthma misdiagnosed as mycoplasmal infection. J Infect Chemther. 2013 Jun;19:534-7.
- 21) Kimura K, Yanagisawa H, Wachino J, Shibayama K, Arakawa Y. Rapid and reliable loop-mediated isothermal amplification method for detecting *Streptococcus agalactiae*. Jpn J Infect Dis. 2013;66(6):546-8.
- 22) Kimura K, Nishiyama Y, Shimizu S, Wachino J, Matsui M, Suzuki S, Yamane K, Shibayama K, Arakawa Y. Screening for group B *streptococci* with reduced penicillin susceptibility in clinical isolates obtained between 1977 and 2005. Jpn J Infect Dis. 2013;66(3):222-5.
- 23) Kimura K, Matsubara K, Yamamoto G, Shibayama K, Arakawa Y. Active screening of group B *streptococci* with reduced penicillin susceptibility and altered serotype distribution isolated from pregnant women in Kobe, Japan. Jpn J Infect Dis. 2013;66(2):158-60.
- 24) Kimura K, Wachino J, Kurokawa H, Matsui M, Suzuki S, Yamane K, Nagano N, Shibayama K, Arakawa Y. High cephalosporin resistance due to amino acid substitutions in PBP1A and PBP2X in a clinical isolate of group B *Streptococcus*. J Antimicrob Chemother. 2013 Jul;68(7):1533-6.
- 25) Nagano N, Endoh Y, Nagano Y, Toyama M, Matsui M, Shibayama K, Arakawa Y. First report of OXA-48 carbapenemase-producing *Klebsiella pneumoniae* and *Escherichia coli* in Japan from a patient returned from Southeast Asia. Jpn J Infect Dis. 2013;66(1):79-81.
- 26) Kimura K, Nagano N, Nagano Y, Wachino J, Shibayama K, Arakawa Y. Ability of the VITEK(R) 2 system to detect group B *streptococci* with reduced penicillin susceptibility (PRGBS). J Antimicrob Chemother. 2013 Jun;68(6):1442-4.
