

第1回日中韓ワンヘルスシンポジウム プログラム:

Opening Remark 12:30-13:00

Session 1: Epidemiology of SFTS (Surveillance and Molecular analysis)

- 13:00-13:20: Epidemiological and Clinical Features of SFTS in Japan
Dr. Hirofumi Kato, NIID
- 13:20-13:40: Epidemiological analysis and molecular evolution of SFTS virus infection in China
Dr. Liang Mifang, China CDC
- 13:40-14:10: Analysis of Epidemiological characteristics
and surveillance of ixodid ticks of SFTS in Korea
Dr. Seo Choong-won, KCDC

Session 2: SFTS and animals

- 14:10-14:30: SFTS virus infection in domesticated animals and ticks, China
Dr. Li Jiandong, China CDC
- 14:30-14:50: The Status of SFTSV infection in livestock, Korea
Dr. Choi Jun-Gu, Senior Veterinary Researcher, Korea Animal and Plant Quarantine Agency
- 14:50-15:10: SFTS in companion animals
Dr. Ken Maeda, Yamaguchi University

Coffee Break 15:10-15:30

Session 3: Diagnosis and Prevention of, and Clinical research on SFTS

- 15:30-15:50: Molecular Epidemiological analysis of SFTS in Korea
Dr. Choi Wooyoung, KCDC
- 15:50-16:10: Development of specific therapy for SFTS with favipiravir
Dr. Masayuki Saijo, NIID
- 16:10-16:30: Diagnostic of SFTS in China
Dr. Li Jiandong, China CDC

Closing Remark 16:30-17:00
